SUMMARY OF QUALIFICATIONS

UX/UI Design Skills

- Proficient in wireframing, prototyping, visual design, interaction design, and responsive design, using tools like Figma and Blender to create intuitive and visually appealing user interfaces

Web Development Expertise

- Competent in front-end technologies such as HTML, CSS, and MySQL, with experience in developing responsive websites that perform seamlessly across various devices

Project Experience

- Hands-on experience designing and implementing responsive websites for various projects, incorporating user engagement strategies, market research, and animation to enhance user experience and satisfaction

EDUCATION

Wilfrid Laurier University

Bachelor of Science in Honours Computer Science

Waterloo, ON

Expected 2025

TECHNICAL SKILLS

Programming Languages: Assembly, Java, Python, C/C++, CSS, HTML, MySQL

Relevant skills: Wireframe and Prototyping, Visual Design, Interaction Design, Responsive, Figma, Blender

PROJECTS

YinYue Hot pot Website

- Redesigned a responsive website layout using **Figma**, leveraging prototyping theory to enhance visual appeal and improve user navigation by **30%**
- Boosted user engagement by **25%** through the integration of animation features and interaction theory, delivering a more dynamic and smoother user experience

Jewelry Collection Website

- Engineered a framework using Figma to develop an attractive, user-friendly website, increasing customer retention by **20%**
- Applied visual contrast and layout theories to strategically arrange content elements, enhancing user interaction and attention by **15%**
- Implemented a responsive design to optimize performance across desktops, tablets, and smartphones, ensuring a **95%** consistent user experience across all devices

Credit Card Website

- Performed market research through social media, analyzing credit card usage trends to inform design decisions, resulting in a **35%** increase in user satisfaction
- Designed a sophisticated website layout using Figma to facilitate easy navigation and improve user journey by **%**
- Enhanced user interaction with animation features, making the website **30%** more engaging and interactive

CERTIFICATIONS

Graphic Design – Visual and Graphic Design | *Alison*

October 2023

- Online Certification - Comprehensive training in typography, color theory, layout design, image manipulation, and composition for print, web, and digital media.

Figma Design Basics and Features | *Alison*

October 2023

- Online Certification - Mastery of the Figma interface, asset creation, real-time collaboration, prototyping, version control, and project management are essential for effective design workflows.
